Established in 2005, **Evergreen Design Group** is a Texas Corporation, providing exceptional Landscape Architectural services nationwide. We consist of a talented and dedicated team of Landscape Architects, Irrigation Consultants and Certified Arborists.

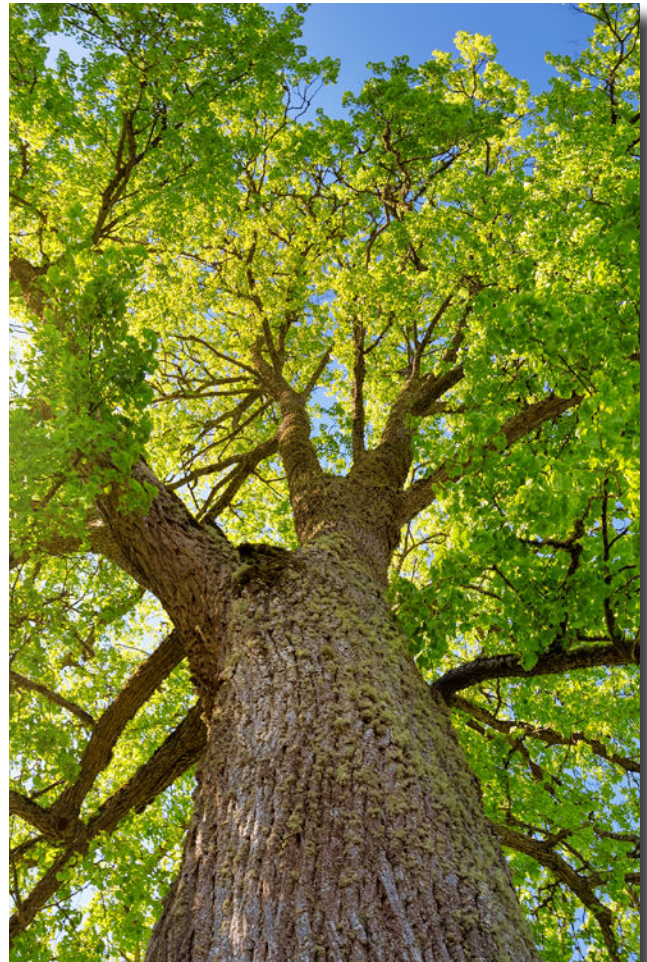

Landscape Architects, serving a complete solution for your vision.

With almost 20 years of experience in all facets of Landscape Architecture, the dedicated team at Evergreen Design Group is disciplined in Land Planning, sustainable Landscape Design, water conserving Irrigation Design, Landscape Graphics, Pool and Amenities design, and much more. We provide comprehensive Landscape Architectural services to meet the demanding and dynamic needs of our clients, guiding them from concept design through construction.

Experience Matters

We are passionate about designing beautifully functional outdoor spaces and we possess the experience to back-up our work. Our seasoned professionals understand that specialized knowledge is paramount for projects in areas such as code-compliant design, landscape irrigation, and water management. We have worked with hundreds of clients on projects of all sizes, all across the country. Our Landscape Architects are highly experienced with large-scale master planning, urban outdoor living spaces, all the way down to an intimate office courtyard. We understand the special needs and resources of all types and sizes of projects.

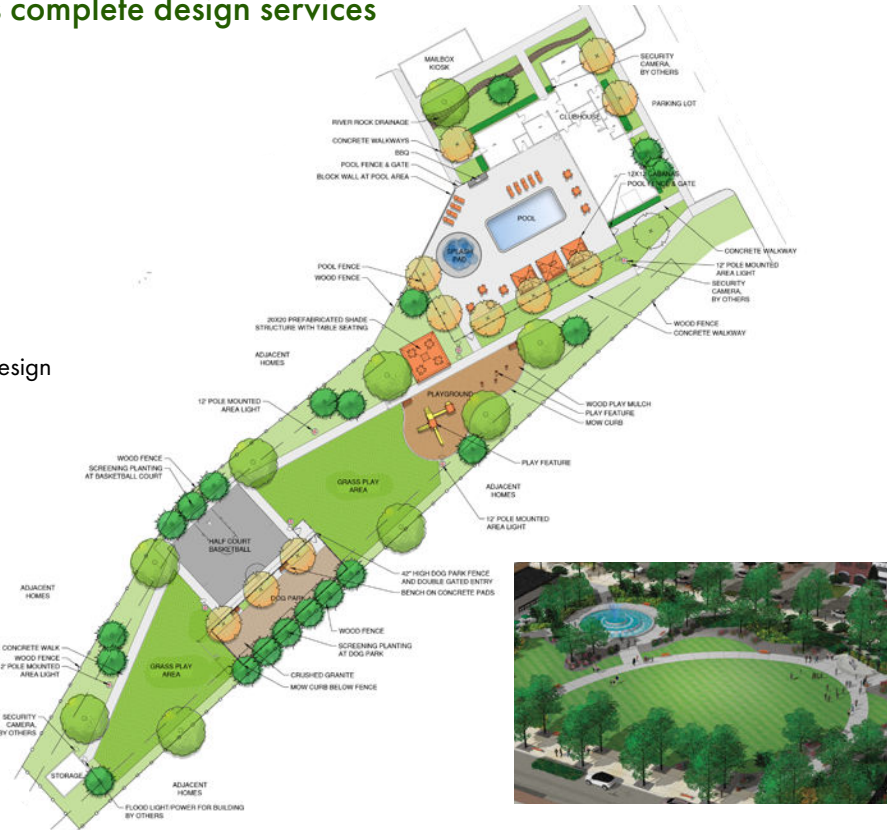

Since 2005, the veteran team of experts at Evergreen Design Group, has successfully partnered with many clients across the country and have achieved optimum project solutions. From code-compliant designs to large-scale master planning, our Experience really does Matter!

WHO WE ARE

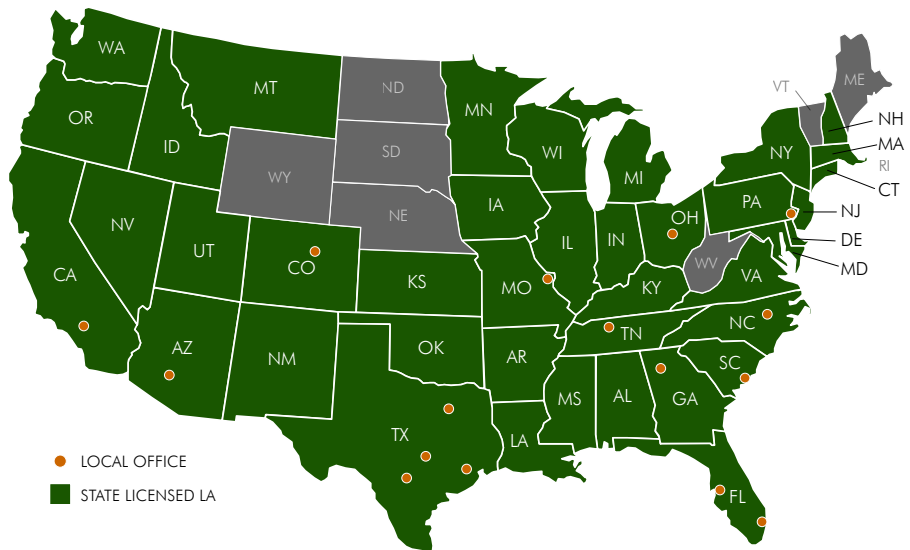

At Evergreen, we take great pride in providing a high level of personalized customer service, uncommon elsewhere. We have a unique business structure that allows us to connect with clients, daily, in five different time zones across the USA. Technology makes it possible, regardless of location, to utilize our best talent and to collaborate with clients and consultants in a cost effective way.

Experienced

With almost 20 years of experience, our talented and dedicated team is experienced on projects of all sizes, from large urban spaces to intimate common areas, so we are available to assist you anywhere within the United States.

Nearby

With offices throughout the United States, we design projects that are right in your area. Our Landscape Architects are currently registered in nearly 40 states! This helps streamline projects nationwide.

Responsive

We understand the importance of your project. We value your time and money. Throughout your project’s life cycle and as part of the project team, we strive to respond immediately to any and all question or concern. We are here, whenever you need us.

Cost-Conscience

Viewing a project from your perspective keeps us on track. We create landscaping solutions that meet your budget, no matter how challenging the site. While our Landscape Architects design projects from a code-compliance and aesthetics point of view, we also view the completed project design from a landscape contractor perspective. This allows us to see potential areas that could result in costly contractor change orders. More importantly, we also look for ways to achieve the Landscape Architects design intent, and see possible ways that may save the property owner in either construction time & cost, or in long-term landscape maintenance costs – or both.

When you choose Evergreen Design Group to join your team, we do just that, we work along side of you as part of the project team. With us on your team you get far more than just a Landscape Architect . . . you receive an unsurpassed experience and a partnership that lasts well beyond the planting of the final tree.
